Personally, what do you think the positives and negatives are of social media?

20 réponses

positive: chat with friends, informations, to be updated of what's happening, discover new things
negative: addictions, fake news, sexual predators, strangers, influences

Positives: being aware of the news of your friends, talk to your friends for free, being inspired
Négatives: lost time

Positive: you can talk with friends
Negative: make us addict to our phones

positive: you can talk to your friends ; negative:fake news,influencing a lot

We can chat with friends that live far away, we can discover world's news. People can be bullied and insulted.

I think it's positive if it's for good use but negative if it's too addictive

I think that positives of social media are that you can talk to your friends and I personally also look the news on instagram. The négatives are that everything that you write or post on social media can be seen

Positives: you can talk to people when they are away from you.
Negatives: weird people ask you weird things and want to follow you.

The positives of social media are that you can communicate with my friends and family that live in another country and also, I can look at the news. The negatives are that you have to be careful of what you post because you Don't know who is going to see it.

With the social media e can't see the time pass and it could be a danger for our metabollism.

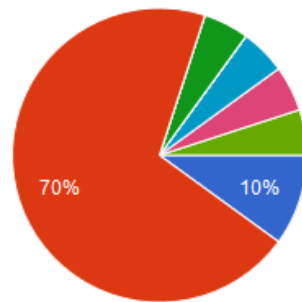

positives: we can ask our classmates questions or lessons until late at night, talk with our friends for free, share our hobbies with friends that are far away... being inspired by the work of others,ect.
négatives: lost of time, fake news

we can communicate with friends but on social media the image of is very importante so some time I see some beautifull girls and instagram and fell bad because of my physic because this girs make's other think that they have a perfect life and beautifull friends and that thay are so beautifull but some thimes it's fake they juste adjust there photo

What is the main reason why you use social media?
